## Instructions-

Print the template on A4 paper, cut out the template items for the Dinosaur you wish to make, the Numbers on each Item is the number of this item you will need for your Dino. Follow the Instructions for your chosen dinosaur.

**A&D-** Cut the correct number of each item out of your chosen colour of felt, Place the 'spots' on the outward facing side of the two dinosaur shapes and attach with a single stich across the middle. Sew the pupil onto the eye with a single stich through the middle then attach one eye to the head of each of the two dino shapes with blanket stich. Place the two dino shapes together with the correct side facing out and blanket stich around the edge, stopping to stuff the dino before closing, tie off thread and hide the end.

**B&C-** Cut the correct number of each item out of your chosen colour of felt, Place the 'spots' on the outward facing side of the two dinosaur shapes and attach with a single stich across the middle. Sew the pupil onto the eye with a single stich through the middle then attach one eye to the head of each of the two dino shapes with blanket stich. Place the two dino shapes together with the correct side facing out and the spines positioned between the two peices as shown on the template, blanket stich around the edge fixing the spines in place as you go. Stop to stuff the dino before closing, tie off thread and hide the end.

**E-** Cut the correct number of each item out of your chosen colour of felt, Place the 'spots' on the outward facing side of the two dinosaur shapes and attach with a single stich across the middle. Place the wing strips and attach with a running stich down the middle of each one. Sew the pupil onto the eye with a single stich through the middle then attach one eye to the head of each of the two dino shapes with blanket stich. Place the two dino shapes together with the correct side facing out and blanket stich around the edge, stopping to stuff the dino before closing, tie off thread and hide the end.

**F-** Cut the correct number of each item out of your chosen colour of felt, Place the 'spots' on the outward facing side of the two dinosaur shapes and attach with a single stich across the middle. Sew the pupil onto the eye with a single stich through the middle then attach one eye to the head of each of the two dino shapes with blanket stich. Place the two dino shapes together with the horns positioned between the two peices as shown on the template, blanket stich around the edge fixing the horns in place as you go. Stop to stuff the dino before closing, tie off thread and hide the end. Sew the curve of spikes under the collar and wrap around the neck attaching the two wnds under the dino's chin, fix in place with a running stich along the front edge, tie off thread and hide end.
